

We stand against torture of any kind

We work to end human trafficking; we oppose the death penalty; we seek to bring peace to our world, beginning in the places where we find ourselves right here, right now.

We care about our world

"We reverence in a special way the presence and power of the Holy Spirit in ourselves, in others and in all of creation." We join with others who are working to protect the Earth Community. We make a conscious effort to live simply, to recycle and re-use, and to reduce our level of consumption - to "re-think" our place in the web of Life, gift of our loving God.
